

We have a shortage of news articles at present, so please let me have a short article of news, updates on latest projects etc that I can use in future newsletters.

The club nets are on Monday and Friday evenings, 7.30 local time on 145.400MHz FM.

For Sale and Wanted.

Icom IC-7300 transceiver wanted. Any condition, as long as it works.
Does not matter if the battery back-up has failed.

In the first instance please let myself know.

I am having a tidy out of the shack, and have for sale:

Tokyo Hy-Power HL-50B linear amplifier. 3.5 – 29.7 MHz + 50MHz.

Works great with FT-817/ KX3 etc. 50 watts output

Excellent condition.

Boxed with power lead, coax patch lead, instruction booklet, mobile mounting bracket & fittings, and control lead wired for FT-817. £229.00

SG Labs 23cm band transverter. 144MHz IF. 1 watt output. RF and PTT

Switching, with lead for FT-817. £175.00

SG Labs 23cm 25 watt linear, for above. £149.00

BNOS LP-144-3-50 2M linear amplifier.

Pre-amp section not working. £ 50.00

SSB Electronics TLA432-50 70cm linear amplifier.

10 watts in 50 watts out. This also gives power supply and switching for use with a mast head pre-amplifier. £129.00

Clark heavy duty pump up mast with tripod base.

In desert / camo brown. EX RAF.

I think four section and about 30 foot extended.

With hand pump. £275.00

Possibly more items to follow as I empty boxes in the spare bedroom!

Kind regards,

Alan G4LVK.
