## **Clubs nets.**

These will continue on Monday and Wednesday evenings.  
7.30 local time. 145.400MHz FM.

The regular net attendees have suggested that we will continue to have a net on Friday evenings for those unable to attend the club meeting, again 7.30 local time, so before the club meeting starts. It would be good if someone could operate the club station G6VGG from the club shack on a Friday evening.

## **Christmas meal.**

What are the members views regarding a Christmas meal this year? If you could let Alan G4LVK know, this will be reported back in future newsletters.

## **For sale.**

The club has a PC desktop case with power supply that is surplus to requirements. The motherboard is dead.  
Offers to Roy G6NYG.

## **Finally.**

As always, any news articles to me please.
